

ABRASIVE SOLUTIONS FOR STAINLESS STEEL PIPES AND TUBES

Tube Milling

HICUT + Flap Wheel

- 25% longer life with consistent Aluminium Oxide coating.
- Excellent adhesion for high-speed cutting.
- Available in multiple sizes, easy to mount for versatile use.

300	15, 25	25.4, 31.75, 127.5

Stainless Steel Mild Steel

CUMI Premium Zirconia Belt

- Sharp Zirconia grains for consistent results.
- Strong polyester backing for tough, wet grinding.
- Durable and long-lasting.

Stainless Steel Mild Steel

ALO Resin Cloth Belt - AJAX Supreme

- Premium Aluminium Oxide grain with strong poly cotton backing.
- Fast material removal, smooth finish, & tear-resistant.
- Handles high pressure and minimizes burn marks.

36 60 80 120

Stainless Steel Mild Steel

Supercut NXT Abrasive Boremops

- Fast Cutting Action.
- Special cloth backing for high material removal.
- Suited for light - medium duty application for weld removal in Stainless steel.

Stainless Steel Mild Steel

HILIFE Abrasive Boremops

- Densely packed flaps for a smooth finish & longer life.
- Aluminium Oxide grains with special cloth backing for fast material removal.
- Larger flange design for extended wheel life.

Cutting

Large Dia Cutting Wheel

- Premium Aluminium Oxide grains for fast, efficient cutting.
- Precise, clean, straight cuts with minimal surface hardening.
- Minimal burr formation compared to hot sawing.

Dimension (mm)

DIA (D)	THK (T)	BORE
300	3	25.4
400	3.4	25.4
500	3.4, 5	25.4, 31.75, 40
600	6	31.75

Stainless Steel Mild Steel

CUMI DF Premium Chopsaw

- Black double fabric for durability.
- Ideal for heavy cutting with enhanced safety and consistency.
- Designed for faster cutting and operator comfort.

Dimension (mm)

DIA (D)	THK (T)	BORE
350	3	25.4

Stainless Steel Mild Steel

CUMI Value+ Chopsaw

- Designed for faster cutting and operator comfort.
- Clogs less and produces minimal dust.
- Fast cutting for improved efficiency.

Dimension (mm)

DIA (D)	THK (T)	BORE
350	3	25.4
350	2.8	25.4

Stainless Steel Mild Steel

Grinding & Finishing

CUMI NXT Flexible DC Wheel

- Delivers a flawless finish across a wide variety of applications.
- Consistent, reliable grinding without distortion.
- Durable and long-lasting with versatile performance.

TEZZ Flap Disc

- Durable Aluminium Oxide for fast weld removal and blending.
- Tough grains and strong backing for high performance.
- Better cut rate with medium wear for lasting use.
- Safe, smooth surface finish for Heavy-duty metal fabrication.
